Exam Report

Full Name: Mohammed Alsadawi

1. Why is early stakeholder engagement important?

- A. It reduces resistance and increases support
- B. It eliminates all risks
- C. It guarantees project success
- D. It removes the need for planning

Your answer is missing

Explanation: Early engagement reduces resistance and improves support.

2. Which element is included in the project management plan?

- A. Subsidiary Management Plans
- B. Product Backlog
- C. Communication Logs
- D. Resource Contracts

Your answer is missing

Explanation: The plan includes subsidiary plans like scope, schedule, and cost.

3. Which technique is commonly used to prioritize project risks?

- A. Probability and impact matrix
- B. Cost-benefit analysis
- C. Earned value analysis
- D. Resource leveling

Your answer is missing

Explanation: Probability and impact matrix prioritizes risks based on likelihood and impact.

4. Which factor can increase stakeholder conflict?

- A. Unclear expectations
- B. Frequent communication
- C. Effective planning
- D. Well-defined roles

Your answer is missing

Explanation: Unclear expectations commonly cause stakeholder conflict.

5. Which document is updated after approved changes are applied?

- A. Project Management Plan
- B. Stakeholder Register
- C. Issue Log
- D. Work Authorization Form

Your answer is missing

Explanation: Approved changes must be reflected in the project management plan and related documents.

6. What is the purpose of the Work Breakdown Structure (WBS)?

- A. Break down project deliverables into manageable components
- B. Assign resources to tasks
- C. Document project risks
- D. Provide procurement requirements

Your answer is missing

Explanation: The WBS decomposes project deliverables into smaller, manageable components.

7. What is a key benefit of integrated change control?

- A. Consistent evaluation of changes
- B. Faster procurement
- C. Guaranteed project success
- D. Reduced team size

Your answer is missing

Explanation: It ensures changes are evaluated consistently and approved properly.

8. Which process focuses on combining all project work into a unified whole?

- A. Project Integration Management
- B. Schedule Management
- C. Communications Management
- D. Procurement Management

Your answer is missing

Explanation: Project Integration Management ensures all aspects of the project are coordinated effectively.

9. Which stakeholder engagement strategy aims to increase stakeholder support?

- A. Proactive engagement
- B. Passive engagement
- C. Reactive communication
- D. Restrictive reporting

Your answer is missing

Explanation: A proactive engagement strategy helps increase stakeholder support and reduce resistance.

10. What is the purpose of a risk audit?

- A. Evaluate effectiveness of risk responses
- B. Identify new risks
- C. Analyze probability
- D. Close risks

Your answer is missing

Explanation: Risk audits evaluate the effectiveness of responses.

11. What is the purpose of qualitative risk analysis?

- A. Prioritize risks based on probability and impact
- B. Produce numerical risk models
- C. Create a risk breakdown structure
- D. Develop mitigation plans

Your answer is missing

Explanation: It prioritizes risks using probability and impact.

12. What is the primary purpose of the Project Charter?

- A. To formally authorize the project and assign the project manager
- B. To provide a detailed project schedule
- C. To document all project risks

D. To define the procurement strategy

Your answer is missing

Explanation: The project charter formally authorizes the project and gives the project manager authority to apply organizational resources.

13. Which tool helps identify stakeholder influence and interest?

- A. Power/Interest Grid
- B. RACI Chart
- C. Network Diagram
- D. Cause-and-Effect Diagram

Your answer is missing

Explanation: The Power/Interest Grid categorizes stakeholders based on influence and interest.

14. What does the change control board (CCB) do?

- A. Review and approve or reject change requests
- B. Assign team members to tasks
- C. Monitor project quality
- D. Create the project schedule

Your answer is missing

Explanation: The CCB reviews, approves, or rejects change requests.
